Gene

1

F:metal ion binding F:identical protein binding F:ATP binding

F:ubiquitin binding

activity

F:protein phosphatase regulator

binding

F:ubiquitin protein ligase

F:ubiquitin-specific protease binding

F:misfolded protein binding

F:polyubiquitin modification-dependent protein binding F:polyubiquitin modification-dependent protein binding

F:RNA binding

F:structural constituent of ribosome

F:DNA binding

F:ATP hydrolysis activity

F:protein-containing complex binding :aspartic-type endopeptidase activity

F:aspartic-type endopeptidase
